

Montana #4 in Nation per capita for CTCL Funds Received

Zuckerberg's money infiltrated 28 of 56 Montana counties in the November 2020 election

f Facebook CEO Mark Zuckerberg and his wife Priscilla Chan donated a total of \$350 million to the Center for Tech and Civic Life (CTCL). Then, in turn, CTCL channeled those funds in the form of grants to more than 2,500 jurisdictions throughout the United States.

 Montana again takes the lead in national potential election fraud by having the #1 county in the country in per capita CTCL funds.

FORM 990 Blaine County received \$36.40 per capita, the highest of the 28 counties that accepted funds. The second-highest county was Glacier, with \$19.15 per capita. The third is Lake County at \$8.77 per capita. It is suspected that the goal was to narrow the margin in Republican states.

 CTCL funds tipped the scales to increase turnout in Democrat-leaning counties in swing states, as well as in targeted counties in traditionally Republican-leaning states like Montana and Utah during the 2020 Presidential Election.

Was the \$2.5 million spent illegally to "modernize" elections in Montana?

It is a clear violation of MCA 13-1-302 :
"Unless specifically provided otherwise, all costs of the regularly scheduled primary and general elections shall be paid by the counties and other political subdivision for which the elections are held."

Senate Bill 335, written to prevent CTCL or any outside monies from being used to pay for Montana elections, failed to pass in 2021. The bill, which served to confirm an existing law, had already established strong rules around accepting private funds to influence elections, eventually failed on a tie vote.

How do I get involved?

- Join the election integrity discussion on Telegram, and follow MEIP here: <https://t.me/MTElectionIntegrity>
- Sign up to canvass in your area - visit MontanaElectionIntegrity.org and click the 'Take Action' button to learn more about how to join.
- Get involved at the county level, **demand accountability, and truth.**

CTCL Trojan Horse!

While this organization's publicized purposes were to modernize and to accommodate elections during the Covid emergency, it is clear that there may have been additional results. Accepting funds allowed for CTCL to collect county bank account information for depositing money, receive the election budget for each county (required per the application), generate hiring opportunities, and create infrastructure for permanent mail-in voting, drop boxes, building upgrades, equipment, vehicles, and whatever else was on the election office wishlist since CTCL more than doubled some county budgets in Montana.

Zuckerbucks Per Capita Used in US 2020 Election

State	Grant Amount	Population (2020 Census)	Per Capita Funding	Trump/Biden	Rank
Georgia	\$45,013,990	10,711,908	\$4.20	Biden	1
